

Directions:

1. Fold this paper in half using the solid black line in the middle of the page so that the graph is facing you.
2. Choose the change you want to represent on the graph.
3. Determine an appropriate timeframe.
4. Draw a trend line to show how your variable changed over time.
5. After drawing your graph, make cuts along the dotted lines to create 3 flaps.
6. Under each flap, write down the highlights or experiences that most influenced the change.
